

## *The sunshine of higher Truth.*

New teachers are rising up.  
They are recognized by the power of True Love  
that ignites the heart of the listener.  
The new teachers have a radiant force  
that courses through the golden web of the etheric vehicle.  
It is a force that words cannot fully describe  
as it raises and heals the frequency of the whole web.

Beauty has a similar effect  
as it also ignites the fire of True Love.  
Beauty is a “way-station” towards the direct experience  
of Divine Love.

The new teachers are empowered with Truth and Beauty  
which draw the attention of listeners towards their Soul.  
Each on their own plane of evolution  
are trained to establish direct contact with the Soul.  
When achieved, they, in turn, express this contact in the world of form  
through their presence and loving actions.
